GERG GROUP

GIVING FORM TO THE FUTURE...

GERG GROUP

THE GERG GROUP.

... AND TURNING IDEAS INTO REALITY.

PRECISE AND COMPREHENSIVE.

The end-to-end solution for your automotive concept: From the first sketch to FEM analysis, design and drivable prototypes - all from a sole source.

**As part of our service offering, we:**

- Manage projects and packaging
- Design and perform FEM analysis in cooperation with the on-site engineering office KLK
- Reverse-engineer digitized data
- Construct models (creating negative, rapid-prototyped components, working lights, and so forth)
- Make fiber composite parts
- Mill and lathe metal, plastic and wood parts
- Fully assemble and mount interiors and exteriors
- Fine-tune, finish and enamel class-A surfaces using a state-of-the-art paint-finishing line

Our Showcar team comprises experts specializing in the most diverse fields. Entrust your project to us and rest assured it will be in the best of hands. Benefit from a wealth experience gained while working with automotive manufacturers' development departments, paired with our passion for innovation.
